SKILLS

Languages: C/ C++ , C# , Java , Python , JavaScript (ES6+), TypeScript , SQL

Frameworks: React.js, Node.js, Express.js ,

Tools & DB: MongoDB, MySQL, Git, Cypress, JIRA

Concepts: NLP, Transformers, LLMs , Generative AI, REST APIs, RAG, Embeddings

PROJECT

Assesly.AI- Intelligent Lab Management System [Python, PostgreSQL, React.js, Node.js, LLMs]

- Developed an AI-driven system to generate personalized lab questions and automate assessments.
- Built faculty & student dashboards for lab scheduling, submissions, and progress tracking.
- Integrated LLM-based evaluation pipeline, improving grading efficiency and consistency
- Developed REST APIs for seamless frontend-backend communication

FIR-LegalConnect – AI-Powered Legal Chatbot [Python, Flask, FAISS, SentenceTransformers, DistilBERT, LLAMA-3]

- Developed a chatbot using RAG architecture with FAISS + LLAMA-3 to retrieve BNS sections and generate contextual legal replies
- Integrated DistilBERT for classifying valid legal queries and improved response time via precomputed embeddings. Achieved ~80% retrieval accuracy with a lightweight Flask REST API

Supermarket Billing System [C++]

- Developed a command-line billing app with Admin/Customer modes and inventory management
- Implemented CRUD operations for products and dynamic invoice generation with discount logic
- Used file handling for product database storage and updates

WORK EXPERIENCE

Cognizant | Feb 2026 - May 2026 | ADM trainee [C#, ASP.net , Entity Framework , SQL]

- Worked on Construction Site Management system to streamline project tracking, resource allocation, and site operations.
- Building RESTful APIs and MVC-based modules for role-based access, scheduling, and reporting features.
- Designed and managed relational databases using SQL, ensuring efficient data storage and retrieval.
- Strengthened full-stack development skills by working across backend (.NET, C#), frontend (MVC views), and database (SQL) layers.
- Gained experience in enterprise-level development practices, including structured coding standards, debugging, and team collaboration.

The Sirius Academy | June 2024 – Feb 2025 | Frontend developer [React.js, Node.js, Express.js, TypeScript, Material UI, REST APIs, MongoDB, Cypress]

- Built a Lesson Management module with CRUD, interactive question types (MCQs, T/F, sequence), and image upload
- Designed the Lesson Page UI and completed the User Profile Page with date/time formatting fixes
- Reused components in the Conversation Module to reduce redundancy
- Collaborated in an Agile remote team using REST APIs, Git, and Cypress

EDUCATION

AMITY UNIVERSITY, NOIDA
B.Tech. in Computer Science and
Engineering | Specialization In AI/ML

2022-2026 | CGPA : 7.83

ST. FRANCIS CONVENT SCHOOL

2020- High Schooling | 85%

RS PUBLIC SCHOOL

2022- Higher Secondary Schooling | 76%

ACHIEVEMENTS

- Bagged 1st position in SPOOKTOBER FEST
- Semi-Finalist in CYBERCUP 2.0
- NPTEL Python for data science
- NPTEL Joy of Computing using Python
- Certified System Administrator, Service Now
